Introduction

No-knock search warrants are sought by Minnesota law enforcement when an agency believes there is an investigative or safety reason to execute the warrant without prior notice, such as a knock on a door. As is the case with other search warrants, no-knock warrant applications are granted or denied by a judge.

Minnesota Statutes, section 626.14, subdivision 4, requires all law enforcement agencies that apply for no-knock search warrants to report the following data to the Minnesota Department of Public Safety (DPS) within three months of issuance or denial:

1. The number of no-knock search warrants requested
2. The number of no-knock search warrants the court issued
3. The number of no-knock search warrants executed
4. The number of injuries and fatalities suffered, if any, by peace officers and civilians in execution of no-knock search warrants
5. Any other information the DPS commissioner requests.

This report fulfills the further requirement that DPS compile the data into a report for the Minnesota Legislature.

DPS does not hold data on the status of cases related to warrants (open/closed), nor on whether the warrants are sealed, or the undercover status of any officer involved with executing the warrants. Information in this report is provided with as much specificity as possible while assuming the possibility that at least one of these conditions exist.

Background

Minnesota Statutes, section 626.14, subdivision 4, went into effect on Sept. 1, 2021.

The Minnesota Bureau of Criminal Apprehension (BCA), a division of DPS, developed and provided a form to law enforcement agencies in November 2021 that enables law enforcement agencies that apply for no-knock search warrants to report the data required by statute in a uniform manner.

The information provided to and compiled by the BCA in this report covers the reporting period Jan. 1, 2025, through Dec. 31, 2025.

Some warrant applications are initially denied but are granted or again denied after the applicant provides additional information. In these circumstances, this report contains information on the final submission and judge's decision.

This report includes both warrants for entry and non-entry execution. Non-entry no-knock warrants do not involve entry of a premises (i.e., for no-knock warrants involving mobile tracking device installation or K-9 sniffs).

No-knock warrant application outcome

This section of the report contains a by-agency listing of the number of applications made, issued by a judge, denied by a judge and executed. Agencies not listed in this report did not report any no-knock warrant data to DPS in 2025.

Method of execution

All agencies that executed warrants contained in this report applied for and were granted no-knock warrants. However, not all warrants were ultimately executed. Others were executed, but not as a no-knock. Agencies may choose to not execute a warrant if the evidence/individual is no longer being sought. Agencies may determine it is no longer necessary to execute the warrant as a no-knock. This section of the report identifies the number of warrants that were executed by each agency as a no-knock, a knock and announce, and non-entry into a premises.

No-knock warrant method of execution
