

NASP PREPaRE Workshop 1

Comprehensive School Safety Planning: Prevention Through Recovery Training Announcement

The Minnesota School Safety Center and the Minnesota Department of Education are hosting the National Association of School Psychologists (NASP) PREPaRE Workshop 1: Comprehensive School Safety Planning: Prevention Through Recovery course.

Workshop 1 Course Description: In this 1-day workshop participants will learn how to establish and sustain comprehensive school safety efforts that attend to both physical and psychological safety. The workshop addresses critical components needed to develop, exercise, and evaluate safety and crisis teams and plans and conduct building vulnerability assessments. The model also integrates school personnel and community provider roles in providing school-based crisis preparedness and response activities. Additional topics addressed also include media/social media, communication, reunification, students with special needs, culture, and memorials. After this workshop, participants will be better prepared to improve their school's climate, student resilience, and crisis response capabilities of school personnel. With updated research and strategies, this workshop makes a clear connection between ongoing crisis prevention, mitigation, protection, response, and recovery. For additional information check out the [NASP Training Curriculum website](#).
