

Portable fire extinguisher record

All testing and maintenance performed on the facility's portable fire extinguishers must be documented in this record. Monthly visual inspections are to be documented on a tag attached to each extinguisher

Facility name

Each extinguisher should receive a line entry

Type, location, model number, manufacture date	Last maintenance: Type, date and performed by	Last recharge: Date and performed by	Last hydrotest: Date and performed by
--	---	--------------------------------------	---------------------------------------
